

WHAT IS EVERYDAY GENIUS?

If you choose to stick to a world where you just do what you have to do, you'll soon find that life becomes increasingly challenging. That astonishing joy you could be experiencing simply won't be there and life will become increasingly mundane. It soon becomes a downward spiral, killing all your mojo.

If you choose to step out of your ordinary and focus on excellence, you can live a life that gets you out of bed with a bounce each morning.

So, an Everyday Genius is someone who intentionally chooses to do more than they need to and move out of their comfort zone, stretching themselves to be the best they can be. They act, they move and groove, they think and challenge, they cogitate and connect. One thing they most definitely are not is a passive passenger in their life.

WHY IS THIS IMPORTANT TO ORGANISATIONS?

Organisations need people to step up from just what they have to do to get paid. The culture where people just do what they have to do is based on the traditional power relationship between employer and employee that simply doesn't cut it in today's crazy, disruptive world. Organisations need to create partnerships where staff feel vested in a culture that harnesses their hidden talents and encourages full out participation.

IS YOUR ORGANISATION DOING EVERYTHING IT CAN TO UNLEASH THESE HIDDEN TALENTS? WHAT ELSE CAN YOU DO?
